

Confined Space Mobile Training Units

Built for the purpose of equipping organisation's and individuals with the skills and knowledge required to work in confined spaces in any given location. Ideal for Emergency Services Training.

“ Each year people are seriously injured or killed in confined spaces in the UK. Regrettably this loss of life include not only people working in the confined spaces but those who try to rescue them without adequate equipment and training. ”

The twin axle **Confined Space Mobile Training Unit** is a lightweight and compact towable unit that meets HSE requirements and provides all your needs in one small package. It is ideal for use by any organisation or individual that carry out work in confined spaces such as:

- Pipelines • Vessels • Silos • Pits • Sewers/Manholes • Drains
- Chambers • Vats • Ductwork • Tanks

Secured in less than 3 minutes

Easily towed, one man operation secured and manoeuvred on site. Its' many safety features make it a highly secure and money saving choice.
